About us

Milan - the late '90s. Tired of struggling with the cold while getting around town on a scooter, we thought why not fix it? And so the **Termoscud**[®] leg cover was born. First just a few universal models and then increasingly specific designs for each scooter. Starting in Milan and then spreading to other big cities, to become 'the Tucano' or 'the Leg Cover' of choice: the one and only original leg cover for scooters, featuring the patented antiflap **S.G.A.S.** system.

Year by year, the Termoscud[®] has been joined by waterproofs, clothing, gloves, bags and a wide range of accessories addressing functionality, comfort and safety whilst always retaining that all-important Italian style. Designed to meet the needs of the urban traveller getting around at work and play. From home to work, from work to an evening out, for shopping and all the myriad daily chores: always protected in any weather and always ready for any event.

Leg cover and hand grip covers

Scooters are nippy in the city, fast, light, clean and trustworthy: that's the way it has to be in winter too. We can't be ruled by the weather and there's no time to waste putting on heavy gear, so the natural choice for the winter season is Termoscud®: the original leg cover.

TERMOSCUD® EVO

The original leg cover with new **PATENTED ANTI-FLAP INFLATABLE SYSTEM (S.G.A.S. 2.0)**: the inflatable chambers on the sides of the cover **prevent flapping at high speed**. This new improved version uses a **new material** and **valve to maintain pressure over long trips**.

N-black

NEW COLLECTION

- Three separate layers guarantee waterproofing and thermal insulation:
 - The exterior is Tarpaulin and heavy Polyamide, tough and waterproof, with taped seams
 - The inner membrane is 100% waterproof
 - The heavy quilt for winter can be removed in summer
- **S.G.A.S. 2.0**: the patented anti-flap inflatable system, with new control valve and high resistance material to ensure pressure is maintained over longer periods
- **Fitting System**: the Termoscud® EVO can be adapted to the legs and different body sizes by varying the inflation of the S.G.A.S. 2.0 air chambers
- **Safety Release**: safety system for releasing the lower straps allowing the feet to move in cases of loss of balance
- Non-scratch neoprene inserts to improve Termoscud® adherence to bodywork and prevent chafing
- Antitheft ring
- Large pocket for baggage
- Seat cover stored in bib
- Reflective edging and details

Optional accessories and spare parts:

Cod. R315EV-1
Right low inflatable

Cod. R315EV-2
Left low inflatable

Cod. R315EV-3
Universal high inflatable

Cod. R316EV
Removable heavy quilt

Custom models for specific scooters
(for compatibility lists see pages 86-89 and
our website www.TucanoUrbano.com).

Can be fitted without a mechanic or specialist.

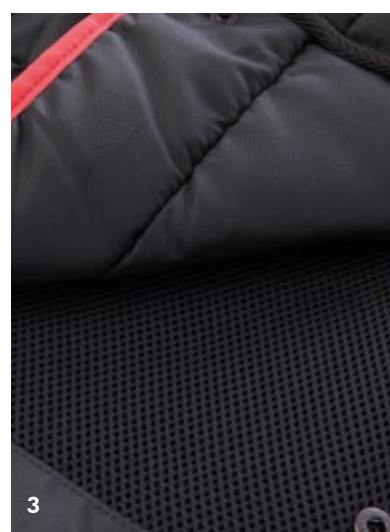

Cleaning instructions: use a damp cloth,
rinse and dry the tapes well before storing
in a dry place.

Termoscud® leg covers

TERMOSCUD® evo

- 1 Heavy quilt for winter, removable
- 2 Fitting System valve; reflective edging and details
- 3 Aero 3D mesh
- 4 Safety Release: safety system for releasing the lower straps
- 5 S.G.A.S. 2.0 valve

THERMAL CONTROL SYSTEM

- in the closed position the deflector directs the warm radiator air to the Termoscud® EVO
- in the open position the deflector prevents the entry of cold air (cold engine) to the Termoscud® EVO
- easy to use
- patented system
- **available only on models R154EV / R173EV**

PATENTED SYSTEM

TERMOSCUD®

The original leg cover with **PATENTED ANTI-FLAP INFLATABLE SYSTEM (S.G.A.S.)**: the inflatable chambers on the sides of the cover prevent flapping at high speed.

N-black

- Three-layer construction to ensure thermal protection and waterproofing:
 - Waterproof heavy Polyamide outer shell and taped seams
 - Fully waterproof inner membrane
 - Lined interior for extra warmth
- S.G.A.S. anti-flap inflatable system
- Anti-theft system (metal ring) available for models not requiring screw fixing
- Large storage pocket
- Built-in saddle cover
- Reflective edging

R078

Custom models for specific scooters (for compatibility lists see pages 86-89 and our website www.TucanoUrbano.com).

Can be fitted without a mechanic or specialist.

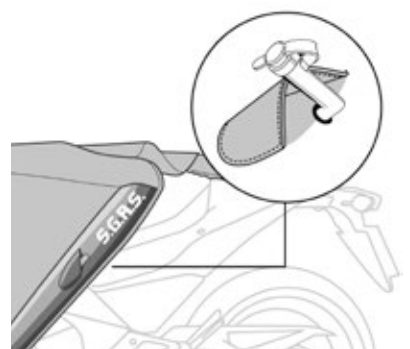

Recommended cleaning: use a damp cloth, rinse thoroughly and then dry all straps before storing in a dry place.

S.G.A.S. ANTI-FLAP INFLATABLE SYSTEM

All Termoscud® leg covers are equipped with a patented system that consists of inflatable chambers on the sides of the cover that prevents flapping at high speeds.

Do not inflate using a compressor or pump Pressure not to exceed 0.1Bar / 1.3PSI

Termoscud® leg covers

THERMAL CONTROL SYSTEM

- When closed, the two side deflectors trap hot air inside the leg cover
- When open, the hot air is allowed to escape
- Very fast to use
- Patented system
- **Available only on R049, R079, R154, R156, R161 Termoscud® leg covers**

PATENTED SYSTEM

- 1 Built-in saddle cover
- 2 Positioning for strap 5
- 3 Large glove pocket
- 4 Anti-theft system (metal ring) available only on the models without screws
- 5 Replacing strap 2 and buckle
- 6 Rubber washer
- 7 Termoscud® folded
- 8 Reflective strip for personalisation with registration number

- Rigid opening with synthetic fur trim
- Hard insert for high speed performances
- Anti-theft fixing system
- Patented system

Clothing

In our waterproof garments, the **waterproofing is 100% guaranteed** by an inner membrane or the use of coated fabrics and taped seams.

All waterproof garments have the ability to withstand the pressure of a high water column, according to European Standard UNI EN 20811.

PVC waterproofing has been eliminated in all Tucano Urbano gloves and clothing. **A choice for the environment and your health.**

On the other hand, **water repellent** fabric causes water to run off, without being absorbed by the fibres. The duration of treatment will vary with the repellent used.

TUCANO URBANO PRODUCTS BENEFIT FROM THREE REGISTERED DESIGN SYSTEMS:

To guarantee total waterproofing and breathability, a 100% rain seal is provided by an inner membrane or the use of coated fabrics and taped seams.

To guarantee absolute functionality and comfort, each pocket is specifically designed to keep everything in its place, so you can easily find it when you need it.

For complete safety and style, reflective inserts are cleverly concealed: you can reveal them when riding and conceal them once you arrive at your destination.

ERMES 8918MF029

Rainwear

PVC waterproofing has been eliminated in all Tucano Urbano gloves and clothing. **A choice for the environment and your health.**

This icon denotes products which retain their technical abilities whilst being **extremely compactable** through the use of super lightweight fabrics and specially crafted finishes.

Kid collection

Moms and dads:

if you appreciate what it means to whizz from one end of the city to the other in no time at all to pick up your kids from school or drop them off at a party, then you won't want to be without your wheels. Tucano Urbano has you and moreover them in mind with their new kid line, so that you can move around even on the coldest and wettest days without risking a sore throat.

- Thermal under trousers
- Elasticated Polyester
- Ideal as an undergarment

Gloves

All the gloves in the Tucano Urbano collection are tested one by one.

Useful information

When choosing your gloves you should think about what you need in terms of heat insulation and sensitivity in your hands: a bulkier glove will offer better protection against the cold while a slimmer glove will offer you greater sensitivity when riding.

In the case of leather gloves you should choose a fairly tight-fitting size as the leather will adapt to your hands with use. Finally, always try on different sizes to find the right one for the characteristics you want!

NEW COLLECTION

Thermal clothing accessories

For us at Tucano Urbano these aren't accessories... but essentials. They say you can always tell a real biker by his accessories! So, we have decided not just to look after your smallest needs, but to also let you have fun, breaking free of the humdrum city life and adding a little bit of irony. Just little things that make a big difference!

Safety

For us safety means not just protection but also visibility and comfort. Travelling safely on 2 wheels means protecting yourself actively by wearing appropriate clothing (even in summer you can stay protected without melting in the process), by ensuring that you can be seen, by day and by night, in rain or fog (even a small reflector is enough to ward off potentially serious danger), and making sure that you feel as comfortable as possible so you can fully concentrate on the road.

Travelling by bike is more comfortable when wearing waterproof and breathable clothing that keeps your body at the right temperature, when any baggage carriers are balanced and do not cause obstructions, and when clothing and accessories are used that block wind even at high speed.

EL'MET 1100

9 head size fittings XXS / XXL

Shell in 3 sizes: small / medium / large

- ECE 22.05 approved in Italy
- Fibreglass shell in 3 sizes
- Removable and washable eco leather and Polyester inner
